Sure, I think that's fine! Thanks.

I'll do that, Miranda!

If I start it today, but perhaps finish next Monday, is that okay?

Thanks Laurie! If you have the time and would like to, you could skim over the new organization of the document (putting summaries with the pollutant sections). (b)(5)

Jim and Alex are supposed to look at it this week too). Other than that, just looking for inconsistencies, etc.

Hi Miranda,

(b) (6)

Is there anything in particular you would like me to look at today? I am also very happy to set aside a few hours next Monday morning (June 11) to read through anything that you would like me to focus on.

Congratulations on making it this far!

Laurie

Subject: Deschutes draft decision document revision 10/24/2018

Hello,

Thank you helping with the review of the draft Deschutes TMDL decision document. Your thoughts and comments were very helpful, and I appreciate all of your time and effort with this! I have worked through the comments and made edits to reflect your feedback. I'm sharing the document back out with you so you can check that I sufficiently addressed your concerns, and to make sure there are not any more outstanding high-level concerns with the document. After this point, we will start the management review and concurrence process for issuing our TMDL action.

To simplify this review, I only kept track changes where there were significant content changes (I tried not to keep reorganizational and editorial changes). I also greyed out and/or deleted comments that have been addressed or don't need further attention. I kept comments active where I think it would be a good idea for you to double check that I sufficiently addressed your concerns. I'm asking that you have this review done by next Friday 6/8. Here is the link to the document:
